### Elastic Bandages

- Made from high quality elastic
- Used for over-wrapping compression dressings following extremity surgery
- Superior patient comfort and breathability
- Requires less force to stretch while providing maximum compression
- Greater range of stretch power allows clinicians to set compression
- Honeycomb texture provides even greater stretch with greater compression range
- Honeycomb texture's scalloped edges prevent rolling
- Available with either metal clip or hook and loop closure
- Not made with natural rubber latex
