Table of Contents

Table of Contents

DeRoyal®

A-View® Balloon

The A-View® Balloon is an endotracheal balloon catheter developed with the direct intent of preventing periprocedural stroke during cardiac related surgeries. The balloon catheter is inserted through the endotracheal tube into the trachea during transesophageal echocardiography (TEE). The balloon is specially designed to fill the air-void caused by the interposition of the airway between the echo probe and distal ascending aorta also commonly known as the 'blind spot'.

- Allows for complete visualization of the distal ascending aorta
- Pre-incision diagnosis helps to improve surgical strategy
- Aids in real-time imaging
- Improves safety, quality, and outcomes
- Promotes clinical team collaboration
- Helps to reduce the risk of periprocedural stroke in cardiovascular related surgeries
- Not made with natural rubber latex

Product #	Description	Qty
01-002	A-View® Endotracheal Balloon Catheter	10/Cs

24cm Catheter Marker
- Alignment of the 24cm mark on the endotracheal tube helps to ensure the A-View® Balloon is completely outside of the endotracheal tube indicating the balloon is safe to inflate.

Balloon
- 50ml max fill capacity
- Burst tested at 100ml's with no burst
- Small (kg's) patients require 20-30ml's
- Larger (kg's) patients require 30- 40ml's

3-Way Stopcock
- For safe and efficient balloon prep/aspiration

Safety Indicator Pilot Balloon
- A safety feature designed to serve as a visual indicator that the distal A-View® Balloon has reached its maximum fill capacity.

Catheter
- 12 FR diameter
- 35 cm working length from marker to distal balloon tip
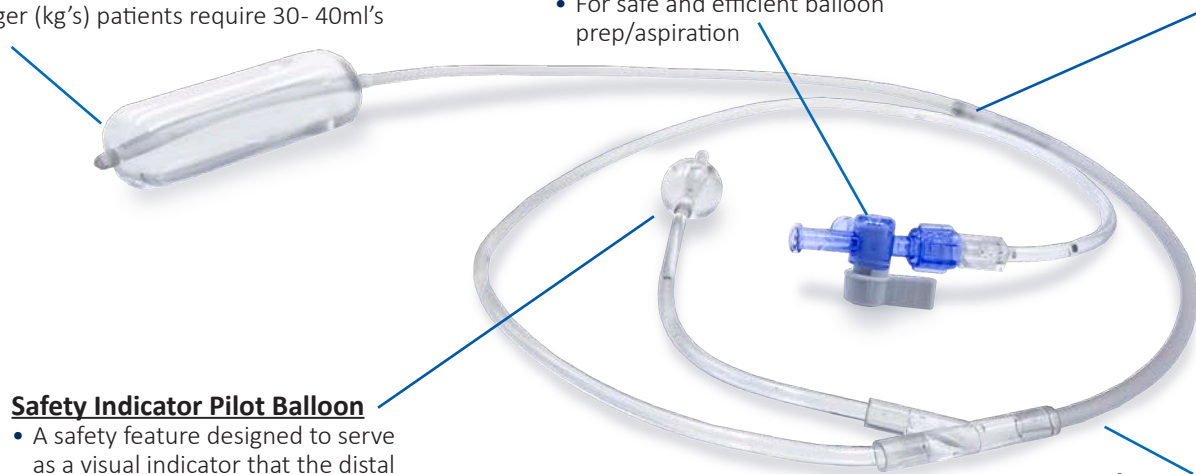

Interface Cables

- Allows DeRoyal® temperature probes and sensors to connect to most monitors
- Length: 12 ft (3.6 m)
- Packaged 1/box
- Reusable
- Not made with natural rubber latex
- Non-sterile

DeRoyal®

Esophageal Stethoscope Probes

- For use in surgical setting to monitor heart and respiratory sounds and to measure core body temperature in anesthetized patients
- Provides heart and respiratory sound transmission
- Complete line includes all popular French sizes
- Thin distal cuff allows optimal transmission and fidelity
- Not made with natural rubber latex
- Sterile

400 Series/Regular Tube

Product #	Description	Size	Qty
81-040409EU	Esophageal Stethoscope	9FR	50/Cs

81-040424EU	Esophageal Stethoscope	24FR	50/Cs
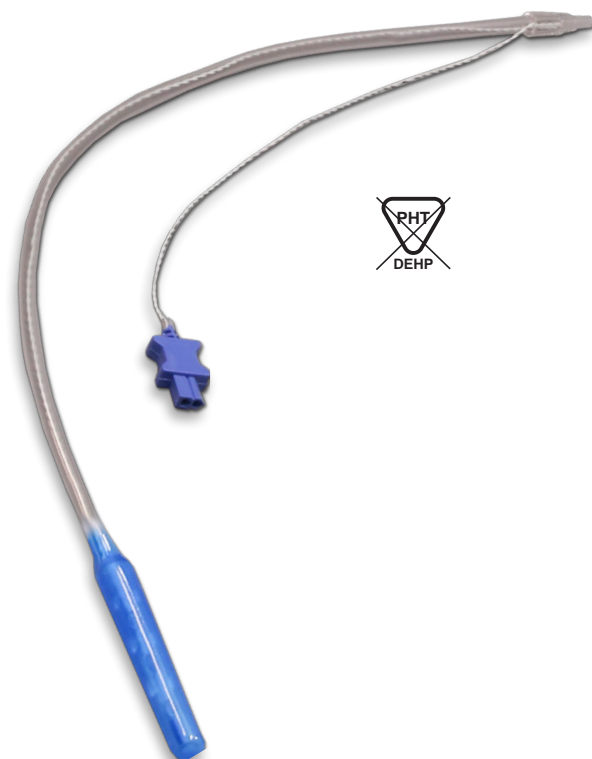

General-Purpose Probes

- For routine monitoring of patient's core body temperature
- Versatile design allows for oral, nasal, or rectal introduction
- Low-friction surface improves ease of insertion
- Depth markings in 5 mm increments to indicate insertion depth
- Completely enclosed wire to prevent ingress of fluid or moisture
- Thin, flexible design
- Available in regular and soft flexibility
- Length: 2.3 ft (70 cm)
- Not made with natural rubber latex
- Sterile

Foley Catheters with Temperature Sensor

- For urinary drainage and simultaneous monitoring of core body temperature
- Dual-purpose design can be used before, during, or after surgery
- Color-coded hubs for size identification
- Complete range of sizes: 8-18 French
- Available single sterile or can be delivered in a Custom Procedural Tray
- Dependable 100% silicone tubing
- Certified as MR Conditional for use in Magnetic Resonance (MR) Environment at 1.5 and 3.0 Tesla
- Not made with natural rubber latex
- Sterile

DeRoyal®
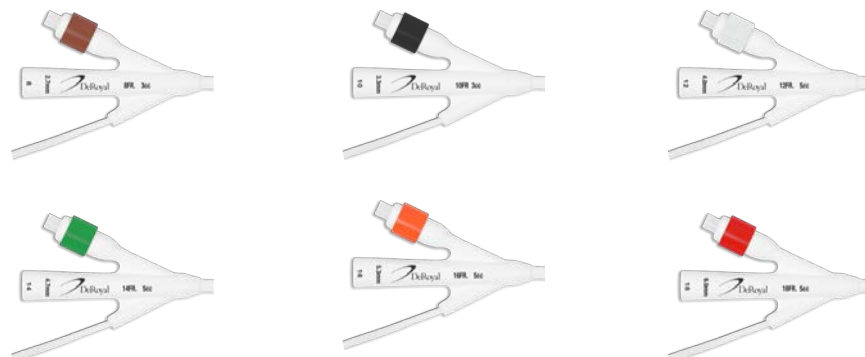

Tympanic Probes

- Designed for atraumatic measurement of patient's core body temperature from the aural canal
- Contoured ear piece
- Soft cotton tip
- Wire length 3 ft (90 cm) allows for patient movement
- Not made with natural rubber latex
- Non-sterile

400 Series

Product #	Description	Qty
81-090400EU	Tympanic Temperature Probe w/ Foam Ear Plug	50/Cs

Adult Skin Sensors

- Highly accurate skin sensor provides reliable surface temperature readings
- Can be used in all clinical settings requiring routine monitoring of the patient's surface temperature
- Non-irritating adhesive is less traumatic to patient's skin
- Length: 2.3 ft (70 cm)
- Not made with natural rubber latex
- Sterile

Neonatal

DeRoyal® Neonatal Skin Temperature Sensors

Provides comfortable and precise management of neonatal patient's vital signs. Our neonatal temperature monitoring sensors are available in a number of designs and interfaces, making it easier for practitioners to customize their product needs to their patient needs. Through this large product offering, DeRoyal is able to provide a wide array of cost-effective treatment options, designed with fragile neonatal patients in mind.

- Provides reliable skin temperature reading
- Compatible with the most common neonatal temperature monitoring and warming equipment
- Unique color-coding system ensures proper sensor identification during use and storage
- Packaged with a reflective sensor cover that deflects radiant heat for more accurate readings
- Disposable replacement covers available n choice of hydrogel or adhesive pads to adhere to fragile infant skin without irritation
- For more information on corresponding machines, please contact DeRoyal Customer Service

PHT DEHP

Fully Disposable

- Length: 5 ft (1.5 m)
- Packaged 50 sensors/case
- Packaged with variety of sensor covers
- Not made with natural rubber latex
- Non-sterile

DeRoyal®

Neonatal Sensor Replacement Cover System

- For accurate measurement of baby's skin temperature
- Cover insulates the sensor from ambient room temperature
- Reflective sensor cover deflects radiant heat for more accurate readings
- Two sizes available
- Hydrogel and acrylic adhesive options
- Hydrogel covers available with or without foam to maximize conformability
- Hydrogel adhesive reduces risk of epidermal stripping and allows the removal or relocation of sensors without disrupting skin integrity
- Packaged 200/case
- Not made with natural rubber latex
- Non-sterile

Waste Fluid Management

Semi-Rigid Outer Shell w/ Bracket

SafeLiner® Semi-Rigid Liner System

- Hydrophobic filter technology helps prevent backflow of aspirated fluids into hospital vacuum systems
- Innovative adhesive seal keeps lid securely in place to help prevent leakage and spills
- Self-aligning lid allows for quick and easy assembly
- Larger ports for better suction
- Filter traps aerosolized microorganisms
- Liners are nested for efficient packaging and storage
- Single-patient use
- Outer shell with bracket is re-useable
- Not made with natural rubber latex
- Non-sterile

DeRoyal®

Crystaline® ECO Rigid Canister System

- Patented dome design provides increased implosion protection when exposed to lipids in bodily fluids
- Hydrophobic filter technology helps prevent backflow of aspirated fluids into hospital vacuum systems
- Tether management with tear-away membrane for ease of use
- Larger ports for better suction
- Completely disposable
- 800cc, 1200cc, 1500cc, and 2500cc capacities
- Secure press-on lids
- Filtration of staphylococcus aureus at 99.5% efficiency
- Filter traps aerosolized microorganisms
- Initial hardware provided on consignment
- Single-patient use
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Qty
71-0800	800cc Rigid Canister	50/Cs
71-8002	1200cc Rigid Canister, 2 elbows	40/Cs
71-8005	1200cc Rigid Canister w/DISS Mount, 1 elbow	40/Cs

71-8004	2500cc Rigid Canister, 2 elbows	32/Cs

Omni-Jugs® Suction Canisters

- 16 liter disposable rigid canisters, the largest on the market
- Allows use of up to four devices simultaneously
- Eliminates changing canisters during heavy fluid procedures
- Built-in handles allows for easier transport when full
- Fits Operating Theatre ring stand for easier transport
- Floor dolly available for easy movement during and after procedure
- Completely disposable
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Qty
5036-00	Omni-Jugs® Suction Canisters	4/Cs

5036-10	Floor Dolly	1/Ea
5036-20	Carrying Handle, Reusable	1/Ea
5036-22	Manifold w/Collection Sock	20/Cs

Waste Fluid Management

Solidifier

- Solidifies potentially serious infectious waste within the suction canister quickly and effectively
- Quickly penetrates throughout canister to solidify blood and bodily fluids
- No shaking required
- Retains solidity to prevent spills and leaks for safe and easy red bag disposal
- Concentrated formula: one ounce cost-effectively solidifies 1000cc of liquid
- Chlorine-free for non-toxic incineration
- Not made with natural rubber latex
- Non-sterile

Puddle Guppy® Floor Aspirator

- Disposable floor aspirator to quickly remove fluid from Operating Theatre floor
- The only floor aspirator with a detachable "Fish Stick™" push handle
- Great for clean up during and after high fluid cases
- Includes 2 m suction tubing
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Qty
5036-30*	Puddle Guppy® Floor Aspirator (Includes 1 Fish Stick™)	30/Cs
5036-31*	Puddle Guppy® Floor Aspirator w/Clamp (Includes 1 Fish Stick™)	30/Cs
5036-35	Fish Sticks™ push handle	10/Cs

DeRoyal®

H2NO® Suction & Anti-Fatigue Mat

- Lightweight for ease of set-up and disposal resulting in improved room turnover times
- Economical for heavy fluid procedures helping to eliminate laundry on the floor
- Provides strong, quiet suction with anti-fatigue properties
- Non-skid design with fluid channels to reduce standing fluid
- Single use eliminates cross contamination possibilities
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Size	Qty
H2NO	Suction and Anti-Fatigue Mat	1.4 m x 1 m	10/Cs

Blue Absorbent Mats

- Three sizes to accommodate any size operating room, lab station, decontamination room, or scrub sink
- Accommodates rolling casters on carts and accessories helping to prevent tearing or bunching
- Laminated impermeable backing eliminates fluid contact to floor to help prevent staining
- Reduces linen use
- Not made with natural rubber latex
- Non-sterile
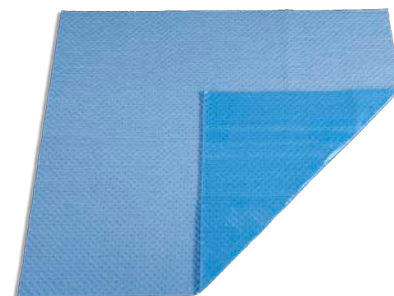

Product #	Description	Size	Qty
71-4304	Blue Absorbent Mat, Small	1.2 m x 1 m	10/Cs
71-4305	Blue Absorbent Mat, Medium	1.2 m x 1.8 m	10/Cs
71-4306	Blue Absorbent Mat, Large	1.2 m x 3 m	10/Cs

Grey Absorbent Mats

- Helps prevent fluids from hitting the floor to address slip and fall incidents
- Large sizes allow three people on mat at once
- May be positioned in a variety of locations for use in different procedures
- Accommodates rolling wheels
- Stationary, non-skid surface
- Lightweight for easy clean up and removal
- Reduces linen use
- Unique absorbent surface helps prevent fluid splashes
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Size	Qty
71-4301	Floor Mat	1.2 m x .7 m	32/Cs
71-4301L	Floor Mat w/ Poly Backing	1.2 m x .7 m	10/Cs
71-4302	Floor Mat	1.2 m x 1.5 m	16/Cs
71-4302L	Floor Mat w/ Poly Backing	1.2 m x 1.5 m	10/Cs

Pink Absorbent Mats

- Made of super absorbent polymers and layered absorbent fibers for heavy fluid control
- Contains up to 60% recycled content with pliable fibers for folding and easy storage
- Helps prevent fluids from ever hitting the floor to address slip and fall incidents
- Laminated impermeable backing eliminates fluid contact with floor to help prevent staining
- Accommodates rolling casters on carts
- Stationary, non-skid surface
- Lightweight for easy clean up and removal
- Reduces linen use
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Size	Qty
71-4312	Pink Absorbent Mat, Medium	.7 m x 1.4 m	10/Cs
71-4313	Pink Absorbent Mat, Large	1.2 m x 1.4 m	10/Cs

DeRoyal®

Suction Accessories

- Offered with all DeRoyal® canisters, suction and fluid control products
- Equips staff for even the most complex set-up

Collection Sock (71-1123)   5-In-1 Connector (71-1124)   Elbow (71-1118)

⚠ *WARNING- This product can expose you to chemicals including di(2-ethylhexyl)phthalate, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

Suction Hardware Guide		
Part #	**Description**	**Use/Notes**
71-1119	Plastic DISS Adapter	Universal plastic regulator adapter (polycarbonate); both female and male fittings. DISS (Diameter-Indexed Safety System)
71-5014	Bracket, Flat Ring, 1200cc	Metal three-hole flat bracket for 1200cc rigid canisters. Typically used when hung from a wall regulator with polycarbonate DISS adapter (71-1119)
71-2098	Bracket, Flat Ring, 1500/2500cc	Metal three-hole flat bracket for 1500/2500cc rigid canisters. Typically used when hung from a wall regulator with polycarbonate DISS adapter (71-1119)
71-5003	Bracket, Metal Ring- 1200cc	1200cc ring bracket for standard metal hospital mount that has no bottom, edging or lip, 4 cm wide (typical use is on anethesia carts)
71-2096	Bracket, Metal Ring- 1500/2500cc	1500/2500cc ring bracket for standard metal hospital mount that has no bottom edging or lip, 4 cm wide (typical use is on anethesia carts
71-5008	Bracket, Plastic Ring w/ Valve 1200cc	Ring bracket for 1200cc rigid canisters to be used with plastic roll stand or patient floor wall mounts. Bracket includes on/off valve and blue vaccum hose
71-5009	Bracket, Plastic Ring w/ Valve 1500/2500cc	Ring bracket for 1500/2500cc rigid canisters to be used with plastic roll stand or patient floor wall mounts. Bracket includes on/off valve and blue vaccum hose
71-5010	Bracket, Plastic Ring, 1200cc	Plastic single canister ring bracket for 1200cc canisters, 5 cm wide, used with existing wall mounts or DeRoyal 71-1116
71-1117	Bracket, Plastic Ring, 1500/2500cc	Plastic single canister ring bracket for 1500/2500cc canisters, 5 cm wide, used with existing wall mounts or DeRoyal 71-1116
71-5018	Bracket, Plastic Ring (Grey), 1500/2500cc	1500/2500cc ring bracket w/holes for regulator mount
71-5012	Bracket, Pole Mount	Mount to attach canisters to either a vertical or horizontal pole or handle
71-5017	Bracket, Rail Mount	Universal for Crystaline™ Rigid Canisters & SafeLiner® Semi-Rigid Liners
71-5019	Bracket, Rail Mount (Hill-Rom®, Hanging)	Rail mount specific to Hill-Rom® Headwalls to be used with Crystaline™ Rigid Canisters and SafeLiner® Semi-Rigid Liners
71-1000T	Bracket, T Mount	Semi-Rigid Outer Shell "T Connector" Canister, 1000cc
71-1500T	Bracket, T Mount	Semi-Rigid Outer Shell "T Connector" Canister, 1500cc
71-3000T	Bracket, T Mount	Semi-Rigid Outer Shell "T Connector" Canister, 3000cc
71-5046	Manifold, 4 Port	Manifold tubing used with plastic roll stand (71-5045)
71-5047	Manifold, 2 Port	Manifold tubing used with plastic roll stand (71-5045)
71-1000BR	Outer Shell Canister, Semi-Rigid, 1000cc, Bracket Mount	Outer shell for use with Semi-Rigid 1000cc liners, sliding bracket mount; fits into standard mounts on plastic roll stand or standard wall brackets
71-1000DS	Outer Shell Canister, Semi-Rigid, 1000cc, DISS Mount	Outer shell for use with Semi-Rigid 1000cc liners, DISS adapter (polycarbonate) for mounting directly onto regulator
71-1500BR	Outer Shell Canister, Semi-Rigid, 1500cc, Bracket Mount	Outer shell for use with Semi-Rigid 1500cc liners, sliding bracket mount; fits into standard mounts on plastic roll stand or standard wall brackets
71-1500DS	Outer Shell Canister, Semi-Rigid, 1500cc, DISS Mount	Outer shell for use with Semi-Rigid 1500cc liners, DISS adapter (polycarbonate) for mounting directly onto regulator
71-3000BR	Outer Shell Canister, Semi-Rigid, 3000cc, Bracket Mount	Outer shell for use with Semi-Rigid 3000cc liners, sliding bracket mount; fits into standard mounts on plastic rollstand or standard wall brackets
71-5912	Rollstand Conversion Kit, 1200cc	Kit required to convert roll stand (71-5045) to accommodate 1200cc rigid canisters; includes (4) ring brackets (71-5008); (1) manifold (71-2046)
71-5915	Roll Stand Conversion Kit for 1500/2500cc	Kit required to convert roll stand (71-5045) to accommodate 1500/2500cc rigid canisters; includes (4) ring brackets (71-5009); (1) manifold (71-5046)

DeRoyal®

Waste Fluid Management

Suction Hardware Guide		
Part #	**Description**	**Use/Notes**
71-5045	Roll Stand, 4-can, Plastic	Plastic four canister roll stand. Must add adapter kits for the following: 1200cc- (71-5912); 1500/2500cc (71-5915); liners (71-5046); manifold + (4) outer shells of correct size
71-5045R	Roll Stand, 4-can, Plastic w/ Regulator Mount	Plastic four canister roll stand. Includes DISS connection on top of roll stand to mount regulator. Must add adapter kits for the following: 1200cc- (71-5912); 1500/2500cc (71-5915); liners (71-5046); manifold + (4) outer shells of correct size
71-5045-8	Roll Stand, 8-can, Plastic	Plastic eight canister roll stand. Must add adapter kits for the following: 1200cc- (71-5912); 1500/2500cc (71-5915); liners (71-5046); manifold + (4) outer shells of correct size
71-5045-8R	Roll Stand, 8-can, Plastic w/ Regulator Mount	Plastic eight canister roll stand. Includes DISS connection on top of roll stand to mount regulator. Must add adapter kits for the following: 1200cc- (71-5912); 1500/2500cc (71-5915); liners (71-5046); manifold + (4) outer shells of correct size
71-5045R-S	Roll Stand, 4-can, Plastic w/ Regulator Mount, Short	Short, plastic four canister roll stand. Includes DISS connection on top of roll stand to mount regulator. Must add adapter kits for the following: 1200cc- (71-5912); 1500/2500cc (71-5915); liners (71-5046); manifold + (4) outer shells of correct size
71-5016	Roll Stand, Floor Kick, Double, Universal	Metal double canister roll stand for Crystaline™ rigid canisters. Must add appropriate ring bracket for rigid canisters or outer shell for liners
71-1168	Wall Mount Stop w/ Thumb Screw	Adjustable stop for wall mount brackets that do not otherwise have a stop to prevent ring brackets (71-1117) or liner outer shells (71-1000BR, 71-1000DS, 71-1500BR, 71-1500DS, 71-3000BR) from sliding all the way through the mount
71-5013	Wall Mount, Double, Universal, Metal	Metal double wall mount. Can be used to hang 2 canisters or liners from one standard hospital wall mount. Used in combination with the following plastic ring brackets: 71-1117, 71-5008, 71-5009, 71-5010, 71-1000BR, 71-1500BR, 71-3000BR
71-1116	Wall Mount, Plastic	Plastic wall mount used in combination with plastic ring brackets, SafeLiner® Bracket Outer Shells
71-5020	Wall Plate, Metal	Metal wall mount used in combination with plastic ring brackets, SafeLiner® Bracket Outer Shells

Round Head Positioners

- Breathable, high-density foam construction
- Assists in proper alignment of the head, neck and spine during surgical procedures
- Provides stability, support and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Can be used when patient is in supine, lateral or prone positions

Product #	Dimensions	Description	Compression	Qty
M10-091	23 cm OD x 11 cm ID x 4 cm	w/o Center	Non-Compressed	36/Cs
M10-092	18 cm OD x 8 cm ID x 4 cm	w/o Center	Non-Compressed	36/Cs

Stacked Head Positioners

- Breathable, high-density foam construction
- Assists in proper alignment of the head, neck and spine during surgical procedures
- Provides stability, support and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Can be used when patient is in supine, lateral or prone positions
- Designed to provide different inner diameters by simply removing inner rings

Product #	Dimensions	Description	Compression	Qty
M10-090	18 cm OD x 8 cm ID x 4 cm	Multi Ring	Non-Compressed	36/Cs

Head Cradle with "T" Cutout

- Breathable, high-density foam construction
- Assists in proper alignment of the head, neck and spine during surgical procedures
- Provides stability, support and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Can be used when patient is in supine, lateral or prone positions
- "T" cutout allows for secure endotracheal tube placement

Product #	Dimensions	Description	Compression	Qty
M60-023	23 cm x 20 cm x 9 cm	w/o IV Slit	Compressed	10/Cs

DeRoyal®

Tall Head Cradle with "T" Cutout

- Breathable, high-density foam construction
- Assists in proper alignment of the head, neck and spine during surgical procedures
- Provides stability, support and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- IV slit permits IV line to pass from the equipment to the patient
- "T" cutout allows for secure endotracheal tube placement
- Taller profile provides patients extra comfort and support

Product #	Dimensions	Description	Compression	Qty
M9503	23 cm x 20 cm x 15 cm	w/ IV Slit	Compressed	36/Cs

Slotted Head Positioner

- Breathable, high-density foam construction
- Assists in proper alignment of the head, neck and spine during surgical procedures
- Provides stability, support and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Slots provide clearance for breathing or tracheal tubes when patient is placed in a prone position

Product #	Dimensions	Compression	Qty
M60-028	23 cm x 20 cm x 10 cm	Compressed	12/Cs

Surgical Patient Positioners
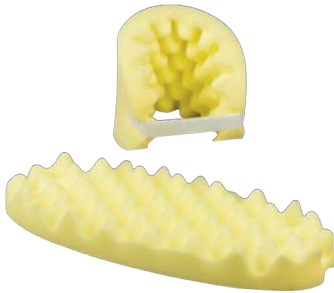

Ulnar Nerve Protectors

- Breathable, high-density or low-density foam construction
- Designed to protect the elbow and ulnar nerve during surgical procedures
- Provides stability, support and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Convoluted foam construction promotes air circulation for patient comfort
- Hook and loop straps for easy application and adjustment

Product #	Dimensions	Compression	Qty
M9500	38 cm x 15 cm	Non-Compressed	36Pr/Cs
M9500E	38 cm x 15 cm	Non-Compressed	36Pr/Cs
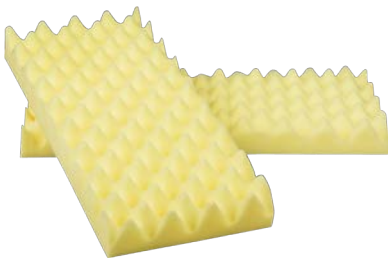

Convoluted Arm Board Pads

- Breathable, high-density foam construction
- Designed to protect the elbow, forearm and ulnar nerve during surgical procedures
- Provides stability, support and comfort
- Helps protect patient from potential pressure issues and/or tissue breakdown
- Convoluted foam construction promotes air circulation for patient comfort
- Bilateral usage

Product #	Dimensions	Compression	Qty
M10-315	41 cm x 19 cm x 5 cm	Compressed	12Pr/Cs
M10-323	51 cm x 19 cm x 5 cm	Non-Compressed	32Pr/Cs

DeRoyal®

Flexible I.V. Armboard

- Flexible board for custom positioning with soft, foam cover
- Adjustable foam straps eliminate the need for skin-irritating tape
- Straps attach to board to limit arm and hand movement during IV therapy
- Can be used for extending and stabilizing the wrist during vascular access procedures, including arterial line insertions and cardiac catheterizations using the radial artery or vein
- Helps prevent patients from flexing their wrist during extended deployments for arterial lines
- Not made with natural rubber latex

Product #	Dimensions	Qty
M8125-A	23 cm x 10 cm	25/Cs

IV Armboards

- To stabilize I.V. sites on delicate veins and limbs
- Malleable stays offer several positioning options
- Removable hook and loop straps eliminate the need for tape
- Padded for baby's comfort
- Not made with natural rubber latex
- Non-Sterile

Product #	Description	Qty
M8125-C	Child, 5 cm x 18 cm	30/Cs
M8125-I	Infant, 4 cm x 8 cm	30/Cs

Foam IV Boards

- Four convenient sizes
- Small metal stay contours easily to fragile limbs
- Tape application to ease the tension to infant's skin
- Not made with natural rubber latex
- Non-Sterile

STEEP-T®
Multi-Angle Patient Positioning System

The STEEP-T® system provides patient fixation for any procedure that requires steep angulation of the operative table.

The STEEP-T® system is a solution for multi-specialty surgical applications. The system helps to prevent unwanted movement or slippage of the patient during table position changes as well as prolonged periods of fixed steep angulation.

The STEEP-T® system is quick and easy to set up. The single-use foam pad with straps may be used to gently reposition the patient on the OR table, as needed, for pre-operative changes.

Sizing Guide
Add letter to end of product # to indicate size

Measure calf circumference 20 cm up from bottom of heel
A*   = 20 cm - 30 cm
B   = 25 cm - 36 cm
C   = 36 cm - 41 cm
D   = 41 cm - 53 cm
E   = 41 cm - 53 cm

Measure foot circumference around the widest part of foot
A*   = 15 cm - 20 cm
B   = 18 cm - 23 cm
C   = 23 cm - 28 cm
D   = 28 cm - 33 cm
E   = 33 cm +

*Size A available in 4301 style only

DeRoyal®

Eye Spear/Fine Dissector

- X-Ray Detectable
- Fine-pore, cellulose fiber is low-linting and absorbent
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-049*	Eye Spear/Fine Dissector	10 Pk, 10 Pks/Cs
30-049-6	Eye Spear/Fine Dissector	6 Pk, 50 Pks/Cs
30-049-10	Eye Spear/Fine Dissector	10 Pk, 50 Pks/Cs

* Available in Non-Sterile- add NS to Product Number

Rosebud Dissector

- Smaller and firmer than a Peanut or Round dissector
- X-ray detectable radiopaque element
- Count holder enables easy sponge count
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-202	6 mm in Foam Holder	5/Pk, 40 Pks/Cs

Peanut Sponge

- X-ray detectable radiopaque element
- Count holder enables easy sponge count
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-106*	9.5 mm in Foam Holder	5/Pk, 50 Pks/Cs
30-010	Double Strung	5 Pk, 100 Pks/Cs

* Available in Non-Sterile- add NS to Product Number

Specialty Sponges

Round (Hard) Dissector

- X-ray detectable radiopaque element
- Count holder enables easy sponge count
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-115*	1 cm Dissector with Foam Holder	5/Pk, 50 Pks/Cs

* Available in Non-Sterile- add NS to Product Number

Kittner (Blunt) Dissector

- Can be used as a longitudinal or folded sponge for dissection
- Constructed of high-quality cotton twill
- X-ray detectable radiopaque element
- Count holder enables easy sponge count
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-101*	1.5 cm x .5 cm Dissector with Foam Holder	5/Pk, 50 Pks/Cs

* Available in Non-Sterile- add NS to Product Number

Single-Strung Tonsil Sponges

- Covered with gauze and cotton filled for maximum absorbency
- X-ray detectable radiopaque element
- Constructed with a 38 cm, white, memory-free cotton string
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-036*	Small 1.9 cm	5/Pk, 100 Pks/Cs
30-037*	Medium 2.2 cm	5/Pk, 100 Pks/Cs
30-038*	Large 3 cm	5/Pk, 100 Pks/Cs
30-039*	X-Large 3.2 cm	5/Pk, 100 Pks/Cs

* Available in Non-Sterile- add NS to Product Number

DeRoyal®

Round Stick Sponges

- Designed for absorption
- X-ray detectable radiopaque element
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-122	X-Large 4 cm	5/Pk, 50 Pks/Cs

Double-Strung Cotton Balls

- Constructed with a 38 cm blue silk thread for ease of retrieval
- X-ray detectable radiopaque element
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-176	X-Small 1 cm	5/Pk, 50 Pks/Cs

Sterile Rayon Balls

- 100% pure medical grade rayon
- Virtually lint-free, uniformly shaped, and soft
- Will not cling to each other, for ease of use
- Not made with natural rubber latex
- Sterile

Product #	Description	Qty
30-224	3 cm X-Large	5/Pk, 100 Pks/Cs

Specialty Sponges

Sponge Counter Bag

- Allows continuous sponge counting and containment to minimize exposure to bloodborne pathogens
- Easy open pockets for simple disposal of used sponges
- Accommodates five laparotomy sponges or ten 10 cm x 10 cm
- Clear polyethylene pockets allow sponges to be viewed for visual estimate of patient blood loss
- Additional bags can be placed over filled ones as necessary
- Not made with natural rubber latex
- Non-sterile

Product #	Description	Qty
25-500	Clear Back	50 Bgs/Crtn, 5 Crtns/Cs
25-551	Blue Back w/ Adhesive Seal	50 Bgs/Crtn, 5 Crtns/Cs

Surgical Accessories

Vessel Loops

- High quality medical-grade silicone
- Strong and durable, yet gentle
- Non-porous to slide smoothly and easily over vessels
- Radiopaque element ensures X-ray detectability
- Color-coded to assist in vessel detection
- Dispenser boxes minimize storage space required
- Two 46 cm strands included in each pack
- Two sizes available:
    - Minis: 1.3 mm wide and 0.9 mm thick
    - Maxis: 2.5 mm wide and 1.0 mm thick
- Wrapped on a plastic card for tangle-free presentation and placement in sterile field
- Not made with natural rubber latex
- Sterile

Surgical Accessories

SurgiClick™ Flexible Light Handle Covers

- Patented design snaps firmly and easily into place to minimize contamination risks
- Unique ergonomic design minimizes risk of splitting or tearing of plastic while ensuring a no-slip grip
- Rigid flange allows quick, easy application
- Reduces the cost of processing, sterilizing and storing light handles
- Flat packaging for efficient storage
- Adapters are provided to fit most brands of surgical lights
- Sterile

26-012

Product #	Description	Qty
26-011	Flexible Snap-on Light Handle Covers	1/Pk, 60 Pks/Bx, 2 Bxs/Cs
26-012	Flexible Snap-on Light Handle Covers	2/Pk, 30 Pks/Bx, 2 Bxs/Cs
26-013	Flexible Snap-on Light Handle Covers	3/Pk, 25 Pks/Bx, 2 Bxs/Cs

Saf-T-Glove™ Flexible Light Handle Covers

- Double angle flange for easier application
- Serpentine rib design for reinforcement of flange
- Universal adapters for standardization of application, providing an easier conversion process
- Friction-fit provides a secure fit to minimize risk of contamination
- Sterile

AM3611

Product #	Description	Qty
AM3611	Flexible Friction-Fit Light Handle Covers	1/Pk, 50 Pks/Bx, 2 Bxs/Cs
AM3612	Flexible Friction-Fit Light Handle Covers	2/Pk, 50 Pks/Bx, 2 Bxs/Cs
AM3613	Flexible Friction-Fit Light Handle Covers	3/Pk, 50 Pks/Bx, 2 Bxs/Cs

Rigid Light Handles

- Rigid flange allows quick aseptic application
- Screw-on design is safe and secure
- Textured handles ensure no-slip grip
- Unique interlocking design eliminates need to package using latex-containing rubber bands or paper bands
- Special packaging configuration facilitates sterile presentation minimizing the risks of contaminating the sterile field
- Universal light handle adapters available for most sugical light models
- Not made with natural rubber latex
- Sterile

Step 1: Insert blade into DeBlade™ mechanism.

Step 2: Slide forward until blade "catches."

Step 3: Slide backward until blade drops safely into box.

SharpStop™ Sharps Transfer Tray

- A disposable device to transfer and pass commonly used sharp instruments
- Use where controls are required to reduce employee exposure to bloodborne pathogens
- Helps to prevent sharps injuries during invasive procedures
- Facilitates compliance to OSHA Directive CPL 2-244D
- Accommodates wide range of scalpels, sutures, trocars, forceps, K-wires, syringes, and retractors
- Underside accommodates the practical positioning and safe passing of multiple instruments
- Accommodates handle sizes 3,4,5,7, and 9 with loaded scalpel blades 10, 11, 12, 15, 20, 22 and 23
- Center finger guide cradles scalpel for safe removal
- Sloping sides automatically rotate and direct dropped scalpels into safety position
- Specially designed central recess is wide enough to accommodate scalpel blades but does not allow fingers to touch blades
- Not made with natural rubber latex
