Pressure Injury Prevention **Solutions**

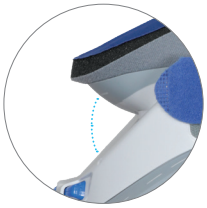

DeRoyal®

Capital® Advanced Cervical Collar

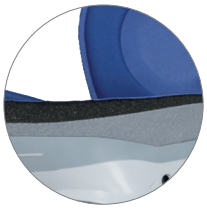

Universal Height Adjustment

- Easy-to-use, pinch adjustment mechanism
- Faster sizing and adjustment
- Adjustment mechanism lock

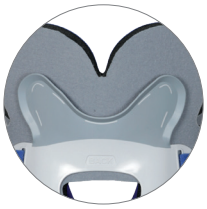

Lower Height Setting

- Better accommodates short/no neck anatomy
- Better accommodates hyperkyphotic patients

Innovative Padding

- Thicker and more robust than industry standard
- Helps mitigate foam “creep”
- Air channels promote breathability & moisture reduction

Flexible Edges

- Flexible layer between foam and plastic
- Reduces pressure in key areas[i]

[i]Comparative Pressure Mapping Data on File

Polyderm™ GTL[5] and GTLite Silicone Foam Dressings - Bordered/Non-Bordered

- Gentle, comfortable, and protective
- Available in 2, 3, 4, and 6 inch sizes

PRUventor TurnPRO® System

Sheet

- Soft, strong, ergonomic handles for a comfortable and secure place to hold while turning and positioning the patient
- Breathable material allows moisture vapor and airflow through sheet
- Top handles on sheet for adjusting patient at head of bed
- Labeling to assist in the proper use of the product
- Reinforced border handles offer strap stability and durability
- Less friction for easy repositioning

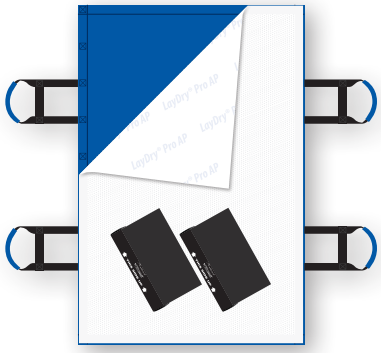

Absorbent Pad

- Soft, breathable, moisture-managing top layer
- Quiet, non-slip back to keep pad in place
- Leakproof bottom layer to help prevent contamination of sheets
- Patented SuperCore® technology provides premium absorbency and moisture wicking capabilities[ii]

Covered Wedges

- High-density foam accommodates varying patient sizes
- Standard 30° angle supports off-loading the sacrum
- Fully covered wedges with high grip fabric to prevent migration
- Integrated positioning handles allow easy adjustment of the wedges
- Anti-slip top and bottom surface ensures wedge securement
- Easy-to-clean, wipeable surface on both top and bottom of wedges

[ii]Data on File. More information on the absorbency and moisture wicking capabilities are available for reference upon request.

Polyderm™ GTL⁵ 5-Layer Silicone Foam Dressings

- Ideal for moderate to highly exudative wounds
- Suitable for wounds requiring protection and pressure redistribution
- Thick, soft construction is conformable and comfortable
- Available in a variety of shapes and sizes, with and without adhesive borders.

Polyderm™ GTL⁵ 5-Layer Silicone Foam Dressings - Sacral

- Superabsorbent layer protects surrounding periwound from maceration
- Silicone contact layer supplies elastic protection from shear force

PRUventor™ II Heel Off-Loading Product Features

Device

- Structured foot rest and static bilateral straps provide additional foot drop support
- Antimicrobial technology helps reduce bacteria levels on the boot surface
- Anti-rotation wedge attaches to either side of the boot
- Dynamic straps with hook tabs for easy and secure placement
- Fluid and stain resistant material can be cleaned and disinfected if soiled

SCD/ICD Exits

- Outlined by white stitching for easy identification
- Compatible with sequential and intermittent compression devices (SCD/ICD) with visually indicated exits for SCD/ICD tubing

Heel Off-Loading

- Filling allows for evenly distributed pressure to the calf for off-loading of the heel[iii]

[iii]Pressure mapping comparison study is available for reference upon request.

Polyderm™ GTL[5] 5-Layer Silicone Foam Dressings - Specialty Shapes

- Custom shaped to anatomical pressure points
- High-density hydrophilic foam helps to disperse localized pressure across entire wound dressing[‡]
